“The strengths of the course were individual instruction and a knowledgeable instructor.”

“The strengths of the course was showing me the areas I need to work on – shooting on the move drills; small targets, same miss; room entries. There was a good progression to the course.”

“The primary instructor utilized his knowledge and experience to provide helpful suggestions and assistance to the shooters during the course. He was not teaching from a “text book” and instead provided practical and realistic drills that will benefit the shooters in real life law enforcement situations.”

“The instructor did a very good job of balancing safety with learning. The class was a mixed group some that either were or had been on a SWAT team mixed with road officers and Federal personnel as well. This means that there was a wide range of both skill level and training styles. The instructor was able to have all of these officers shooting together with no safety violations and still provide quality training.”

“Two segments from the training that I will put into use for my officers will be weapon retention and the hostage situation with SOP.”

“The strengths of the tactical rifle course are the instructor’s years of experience.”
